

DUOFUSE® COMPOSITE DECKING TILES (30x30x2,2cm)

Medium Brown

Stone Grey

The warmth and look of solid wood combined with the unique properties of plastic. Renew your terrace in no time thanks to the unique click system.

ADVANTAGES

- ✓ Low maintenance
- ✓ Slip resistant, brushed surface
- ✓ Will not rot, swell, splinter or split
- ✓ Minimal discolouration, maintains original look
- ✓ Low height: ideal for placing on an existing old terrace
- ✓ Extremely fast installation: 1m² can be placed within 1 minute!
- ✓ Easy to remove tiles: useful for checking electrical cables, drain covers, septic tank,...
- ✓ No accessories, beams, clips, screws, glue... needed: a hard flat surface is sufficient
- ✓ Can be placed in 2 directions and/or in a combination of 2 colours: create your own unique terrace

Tiles are attached to a polypropylene mat with an interlocking system of studs and rings so one tile snaps to the other.

When positioning on rubber or roofing, you must first place rubber tiles to protect existing roof covering.

IDEAL FOR

- Covering an outdated terrace
- Roof terrace of an apartment
- Finishing of a basement or attic
- Temporary floor on an exhibition stand
- Balcony
- Garden path
- Placement in and around a greenhouse or shed
