DURASID®
cladding & roofline

ROOFLINE

DURASID® Roofline products offer a modern and sustainable solution for finishing roof edges.

Our fascia boards and soffits are manufactured from high-quality PVC, combining durability with ease of installation. It's a complete system with colour matching accessories to ensure a professional finish on all projects.

Benefits of PVC

Easy to install /
light weight

Easy to maintain

100% recyclable

Protecting and upgrading
the outer wall

Wide range of colours
and finishings

Soffits
Hollow PVC profiles

The Durasid® soffit product range combines functionality and aesthetics, making it a popular choice for homeowners.

To preserve and protect the underside of any roof edge, choose from our large range collection of soffit board sizes.

Durasid Roofline soffits provide a clean, durable finish beneath your fascia board.

Fascia Boards
Rigid foam PVC

Durasid fascia boards are made from rigid foam PVC, delivering excellent strength while remaining lightweight and easy to handle.
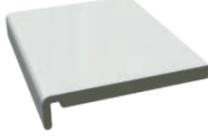

These boards are designed to withstand all weather conditions and are UV-resistant, eliminating the need for painting.

Their smooth finish and wide range of sizes and colours—including woodgrain options—ensure a stylish appearance that lasts for years.

Durasid Roofline fascia boards are manufactured from rigid foam PVC, combining strength with a surprisingly lightweight feel.

Upgrade your home with our durable, stylish and low-maintenance soffits and fascias.

Maintenance

Durasid® soffits and fascias are low-maintenance. Sanding, painting or oiling are no longer needed. The closed surface structure means that the panels do not absorb moisture, virtually eliminating algae growth and moss formation.

Superficial dirt from dust, exhaust gases, air pollution, etc. can be cleaned using a sponge, soft brush or high-pressure hose (max. 80 bar and with the nozzle at least 50cm away). The water must be clean or mixed with a mild household detergent. Aggressive substances or solvents must never be used. Grease and oil stains can be removed using a household degreasing agent.

Guarantee

A 10-year warranty applies for the PVC colour range: White, Grey White, Grey, Camel, Sand, Cream. The complete foil colour range also comes with a 10-year warranty: Golden Oak, Black Ash, Anthracite, Black Matt, Grey Matt, Slate Grey, Anthracite Woodgrain, Black Cherry, Anteak, Turner Oak Malt.

A 5-year warranty applies for the colours Brown, Fondant, Black, Anthracite.

This warranty states that the extruded panels will not discolour excessively as a result of ultraviolet light.
